## Case Study: Proteus Pro-System® Plus

### Track Office - Acton Museum Depot

#### Project Brief:

The Track Office, an administration building for Piccadilly Tube Line located in the heart of Acton Museum Depot, required a new waterproofing membrane following reports of numerous leaks causing disruption to office staff and discoloration to ceiling tiles. As scaffolding was already assembled due to ongoing repair works, it was decided that the roof repairs would be completed at the same time. **Proteus Waterproofing** were asked to supply a high performance, cold applied membrane to minimise disruption to office staff, therefore **Proteus Pro-System® Plus** was specified to meet the client's needs.

#### Key Requirements: High Performance Waterproofing

The metal profile sheets on the roof were firstly primed with **Pro-Epoxy Primer**, then fully encapsulated with **Proteus Pro-System® Plus**. All roof light panels were encapsulated with **Pro-Glaze PU** to allow more light to enter the office, creating a brighter working environment for all staff. **Proteus Waterproofing** worked closely with the **Proteus Approved Contractor** to ensure the project was completed to a high standard.

#### Key Requirements: Health & Safety

As the office was in constant use while the repairs were being completed, a low noise and low odour system was crucial. **Proteus Pro-System® Plus** is cold installed, low odour and low noise meaning all health and safety criteria could be met whilst keeping disruptions to employees and other trades to a minimum.

#### Key Requirements: Long Term Performance

**Proteus Pro-System® Plus** offers a low maintenance, durable waterproofing and protection solution for a range of new build and refurbishment applications. It is cold applied, eliminating the risk of fire and once cured, provides a completely seamless waterproof protection, even on complex detailing, and has excellent UV stability. **Proteus Pro-System® Plus** forms a seamless, fully adhered membrane, **manufactured in the UK** and is **BBA Certified**.
